You can also connect with us on Facebook, Twitter, Instagram, or through our Blog. It has been completely restructured, and is the first to have its design data entirely based on limit state design concepts.

It is divided into seven main sections a design synthesis, which describes the nature of the process by which design solutions are arrived at for a wide range of steel structures, including bridges; b steel technology, which contains chapters on applied metallurgy, fatigue, and brittle fracture; c design theory, which presents a resume of both manual and computer based analytical methods used

for determining the forces and moments in structures subject to either static or dynamic loads. Comprehensive tables for a wide variety of beams and frames are given in the appendix; d element design, which provides a comprehensive treatment of the design of steel elements, singly, in combination, or acting compositely with concrete; e connection design, covering bolts, welds, plate and stiffener elements, foundations and hold down systems; f other elements such as bearings and joints, piles and floors; and g construction, including corrosion resistance. Walling Just like all profiles and products Fielders offer, the range of walling and cladding profiles provide quality solutions to design requirements. Gutters, Fascia, Rainwater Goods Capping Fielders offer a wide variety of capping, ridges and channels to suit your needs. Downpipes Fielders manufacture various steel accessories to complete your gutters and downpipes. Pops, elbows, and straps are manufactured in a range of sizes depending which state you are in. Guttering To complement the extensive range of Fielders steel roofing and building products, Fielders offer a similarly comprehensive range of quality gutter profiles in various designs and sizes to suit the specific requirements in each state of Australia. Rainheads Fielders offers Australias largest range of steel rainheads and vents, with each being meticulously handmade to suit the unique needs of individual projects, ensuring you receive the perfect product each time.

Rainwater Accessories Fielders offers unique accessories which complement the Fielders rainwater, roofing and walling products to ensure you receive the correct fit, seal and longevity for your project every time. Steel Fascia Fielders offer a comprehensive range of Steel Fascia to suit various gutter profiles and property styles. Vents Take a look through Fielders innovative range of dormer, gable and other unique vents to see how they can easily enhance any design. The ARAMAX structural cladding system meets this criterion perfectly because it is unlike any other. Specifying Fielders Services Services Angle Cut Fielders AngleCut is delivering advantages that you simply cant ignore. Its precut to your measurements and delivered to site ready for installation. Curving Fielders offer a wide range of curving to offer you freedom in your designs. Mobile Mill Forward thinking has placed all of Fielders decks in custombuilt containers, consequently Fielders can roll all of their concealed fixed roofing profiles throughout Australia, even in the remotest regions and are ready for the world. Presswork and Fabrication Fielders are proud to now operate the largest press brake machine in the Southern Hemisphere. With our new 1500 tonne and 12 metre pressing capacity machine, we can service even the largest of projects. Download Library Case Studies Guarantees 20 Year Watertight Concealed Fix Guarantee Fielders will guarantee the watertightness of a project utilising one of their concealed fix products for a period of up to 20 years when installed by a Fielders Approved Contractor. Five Year Screw Fixed Guarantee Fielders will guarantee the project utilising one of our approved screwfix products for a period of up to 5 years when installed by a Fielders Approved Contractor. A new paint type and production method optimises light penetration and colour reflectivity. Unpainted Steel We're the only ones who smelt like we did 100 years ago. New doublethickness galvanised roofing.

Noone makes galvanised roofs like they used to, right Wrong. Now Fielders are manufacturing a genuine centurystyle roofing for authentic heritage restorations. News About History Our Partners Our Community Employment Contact Their ability to design and supply innovative composite steel formwork solutions to the Australian construction market has brought economy and flexibility to some of the country's largest commercial projects. Their new technical manuals help make using Fielders innovation even easier for specifiers and installers.
