This site is not available in your country when I discovered the county, I live, Paulding County, GA. made the list of "lower particles" that I was enraged !! The paulding area I live is always smoky. I have a particle counter Dylós DC 1700 on my front porch and we literally never have clean air. Most nights exist between 200,000 to 600,000 .5um thin particles per airbecue. The Air Monitor for Paulding (Yorkville) is on the far side of the county, in the middle of nowhere and conveniently situated so that it avoids most of the smoke of prescription of the National Forest of Talladega and Forest Pauldro. (Both have known as "fire forests", long pine pine that requires burning from 18 months to 2 years with herbicide applications between!) If the threat smoke raises readings, they Disconnect the monitors. (Perfect example: April 4, 2012. Huge smoke event of a Burn of Talladega RX that was covered by all the subway of metro 'Atl. The monitor Yorkville was turned off before the smoke reached.) PaulDing operates in the EPD air quality violation of the state burning regulations open. All outdoor burns require an authorization by state law and EPD regulations, but this county does not show attention to it. In counties with a population of more than 65,000 (paulding is 140,000), all you can burn legally are small piles of leaves and branches. In Paulding, people burn huge stacks of trunks, stumps, wet pine straw, etc. And those of us that complain are treated as if something is wrong with us. There are at least two places in my community, where metal thieves are burning the isolation of the wire and no one will do anything about it. The local park Ranger said: "Someone is being paid". Three years ago I was in perfect health. Now I have damage to my heart and lungs of illegal burning. I have a kind of reactive areas that do not respond to asthma medicine and I have heart arrhythmia. Both are triggered by combustion particles. I'm living sealed in my house with several air purifiers and when I go out in this area, I have to use a cartridge filter mask. Paulding County, GA does not qualify for the list of lower particles.
